# COURTCALL: Host Screenshare

Host(s) and participants can screenshare in the Main Conference or in our many private subconferences simultaneously. *This feature is currently restricted to view screenshare ONLY if using an iOS mobile device or iPadOS device.*

For security purposes, the Moderator or Host(s) have access to revoke screensharing capabilities for participants at any time.
1. To start screensharing, press the '**Screenshare**' button in the bottom control bar.

2. A pop-up asking you to share screen or cancel will appear. Choose '**Share Screen**'.

3. A pop-up will appear letting you select what you would like to share. You may choose from either *Entire Screen, Window, or a Browser Tab*. Additionally, you will have the option of sharing your computer audio by checking the box at the bottom of the pop-up window. Press the blue '**Share**' button to begin sharing.

4. When you are finished, press the '**Screenshare**' button once again. Then press '**Stop Sharing**' in the pop-up box.

5. To revoke a participant's screenshare access, press the '**Participants**' button from the bottom control bar. Hover over the participant's name who is sharing their screen and select the '**Stop Screenshare**' icon from the *Quick Control* Menu.

Hover over participant's name to view the Quick Control menu. Press '**Stop Screenshare**' icon.
