

# **COURTCALL: Participant Screenshare**

To Share your screen, the CourtCall Moderator or Host will need to grant you access. Participants and Hosts can screenshare in the Main Conference and in our many private subconferences simultaneously.

This feature is currently limited to view screenshare ONLY if using an iOS mobile device or an iPadOS device.

***Please Note: For security purposes, the Moderator or Host(s) have access to revoke screensharing capabilities at any time.***

1. Press the '**Screenshare**' button in the bottom control bar.

2. You will receive a pop-up to complete screenshare permission. Press '**Send Request**'. A message will be sent to the Host to either allow or deny your Screenshare access.

3. Once access is granted by the Host, a pop-up will appear letting you select what you would like to share. Choose from either *Entire Screen*, *Window*, or *a Browser Tab*. Additionally, you will have the option of sharing your computer audio by checking the box at the bottom of the pop-up window. Press the blue '**Share**' button.

4. When you are finished, press the '**Screenshare**' button. Then press '**Stop Sharing**' in the pop-up box.
